I am facing a desk. There is a brown chair on my left. What is the color of the bike on my 2 o'clock.

## Thinking...

- <think\_type>This is a question of attribute, so I need to ground the objects in the scene.</think\_type>
- <grd\_rgn>
- <think\_rgn>The objects on my 2 o'clock</think\_rgn>
- <think\_grd>Ground the object: The bike on my 2 o'clock.</think\_grd>

[OBJ]

- <think task>Now I need to retrieve the image of the target object.task>
- <highlight\_obj>

<img\_start>

<img\_end>

- <think\_sum>Now answer the question based on the object image.</think\_sum>
- <answer>silver</answer>

## Silver
